Description Explore the capabilities of the 150cc ATV, designed for both performance and versatility. This quad features a robust 150cc four-stroke engine, ensuring reliable power with its single-cylinder, air-cooled design. It starts effortlessly with its electric ignition and offers a smooth riding experience with an automatic transmission that includes a convenient reverse gear.

Equipped to deliver a solid 10.1 horsepower, this ATV can reach speeds of up to 80 km/h, making it ideal for a variety of outdoor adventures. The fuel tank capacity stands at 4.2 liters, supporting extended rides without frequent refueling. Riders will appreciate the comfortable 32-inch (81cm) seat height and the well-sized tires (23x7-10” front and 22x10-10” rear), ensuring stability and grip across different terrains.

Safety is a priority with the installed remote kill switch, allowing for immediate engine shutdown when necessary. The ATV is also practical, featuring metal carrier racks on both the front and rear, adding to its utility. Braking is reliable with hydraulic disc brakes at both ends, and the option to add a rear hitch ball makes it versatile for towing.

Additional features include a speed governor to control the pace, a front brake system, and a durable suspension setup with an upgraded dual A-Arm at the front and a solid axle rear. The ATV's dimensions are 72 x 47 x 46 inches (182 x 120 x 117 cm), with a dry weight of 331 lbs (150 kg), balancing size and maneuverability effectively. Whether for work or play, this 150cc ATV is engineered to perform, offering a blend of power, functionality, and safety.

This Gas ATV is shipped 90% assembled, some assembly is required.

This Gas ATV requires but is not limited to:

- Basic understanding of Carburetor function. Example: Choke ON, Choke OFF
- Ability to Perform Oil Change and Check Oil
