Description We are here after your purchase. Whether you require warranty or replacement parts, we believe having the parts for the bikes we sell important to our customers. Most shops will only sell you a bike, leaving you unable to repair and maintain your purchase. [Parts](#)

The Swift 250watt Swift Moped allows for transportation even in locations where it would not be possible for conventional, gas powered scooters to be used, due to noise and EPA regulations. Our modern, silent, maintenance free, rider safe, inexpensive products can be ridden in heavily populated areas, suburban neighborhoods, college campuses and even rural streets. Individuals of all ages, benefit from effortless riding and specialized excellence of the product over traditional gas powered scooters. No more noise complaints, gas & oil spills or complex maintenance.
